## 1. Introduction

According to the WYRED project proposal (García-Peñalvo, 2016b, 2017; García-Peñalvo & Kearney, 2016; Griffiths et al., 2017), as part of the WP4 “Networking”, a set of training actions has been developed and implemented to raise awareness among the participants of the ethical issues involved in the project, such as data protection, privacy, safeguarding and other issues.

The work package leader, YEU, developed a set of videos on the topics mentioned above addressed to the different groups of participants. These videos are available for the WYRED platform users according to their profile and age range once they are logged in.

The following videos have been produced.
