netWorked Youth Research for Empowerment in the Digital society

Grant Agreement number: 727066

Reflections on the story so far

Building WYRED

6 months in, what do you see as the main aim of the project?

Do you think your understanding has shifted?

If so, how has it changed and what caused this shift?

Reflections on the story so far

Building engagement

What strategies have you used to engage people?

What has worked for you?

What might be done to improve engagement?

Reflections on WP4

Building the network

What **worked** in WP4?

How can we **streamline** it? How can we make it more responsive to the key objectives of the project? What might be jettisoned?

The introduction of new participants and the networking will need to be **continuous**. How might this be done efficiently and effectively?

How can we make the most of the **transnational** element and the **online** context?

European Commission

Reflections on WP4

Building the network

Do you feel that you have addressed diversity appropriately so far?

Are there improvements that can be made by partners in this area?

WYRED
